

```
1 namespace DragonBallGame
2 {
3     class Program
4     {
5         static void Main(string[] args)
6         {
7             Player player = new Player();
8             GameMenu menu = new GameMenu(player);
9             menu.Run();
10        }
11    }
12 }
13
```
